	52.	Media, including movies and internet sites that are rated higher than PG shall be inaccessible to children.

	53.	Fire exits are clear and exit doors remain unlocked or have locks allowing all parties to safely exit.
RECORD		
	54.	Attendance records are maintained/verified by staff (sign in/sign out sheets available).
	55.	Current Fire Inspection Report.
	56.	Current Sanitation Report.
	57.	Current Well-water Test Results.
	58.	Policy statements and Emergency Preparedness plan is on file and given to parents. If changes in policy, new copies are received.
	59.	Required injury/Illness/Incidents are reported and kept on file.
	60.	Explain the role of your board of directors and has the chairperson changed.
	61.	Infant documentation for diapering and feeding is made available to parents.
	62.	Menus are current and available for parental review.
	63.	Name of food program provider belongs to:
	64.	Written record(s) of emergency preparedness drills are complete and available.
	65.	Confidentiality.
	66.	Children's names, pictures and any other information shall have parental permission for use.
	67.	All equipment and products used in child care facilities shall be used per manufacturer instructions. Manufacturer instructions/guidelines, including but not limited to Indoor/Outdoor equipment, Cribs, Sleepers/Sleep Sacks shall be on file.
FOOD PI	REPA	RATION/CARE/SERVICE
	68.	Food prepared and served is of sound condition and approved source (no wild game)
	69.	No "home-canned" food
	70.	Pasteurized eggs, egg products and juice (children 9 and under)
	71.	Milk and milk products Pasteurized and Grade A Quality standards - including dry ($\frac{1}{2}$ or 1 gallon for serving and no reuse of milk, refrigerate after pour) No dry powdered milk for drinking
	72.	Sufficient cold and hot storage equipment present for potentially hazardous food
	73.	Refrigerator food contents held at or below 41 degrees
	74.	Freezer food maintained in frozen condition at or below 32 degrees
	75.	Are potentially hazardous prepared foods held at or above 135 degrees.
	76.	Food is cooked to the proper internal temperatures
	77.	Beef roast 140
	78.	Steak/ chops /fish 145
	79.	Ground beef and pork 155
	80.	Poultry and stuffed meats/ all leftovers 165
	81.	In refrigerator 41 degrees F or lower
	82.	Under potable water @ 70 degrees F or lower
	83.	Microwave

	84.	Food protected from contamination			
	85.	No unwrapped leftovers			
	86.	Food storage (clean, covered, labeled) at least 6" above the floor			
	87.	Cross-contamination prevention: least possible manual contact with clean & sanitized surfaces and utensils.			
	88.	Food preparation and service surfaces are constructed with safe materials and are in good repair (corrosion resistant, cleanable, durable)			
	89.	Food preparation and service surfaces are cleaned and sanitized			
	90.	Adequate lighting, vent covers, wall-mounted fans, and similar equipment in good repair			
	91.	Hair control for food prep practiced			
EQUIP	MENT	STORAGE, CLEANING & SANITIZING			
	92.	All equipment and utensils for food preparation and service are cleaned & sanitized and stored 6" above floor level			
	93.	Warewashing method: with a water temp reaching a minimum of 150 degrees.			
	94.	3 compartment sink with sanitizing basin Air drying sanitizer strength:			
	95.	Sanitizer is mixed at the proper strength (50-100ppm Chlorine/ 200ppm QuaternaryAmmonia/ or according to product label)			
	96.	Single-service articles store 6" above floor level			
	97.	No reuse of single-service articles			
	98.	Toys are sanitized no less than weekly or more often if visibly soiled.			
PHYSI	YSICAL FACILITIES				
	99.	Floors, floor coverings, walls, wall coverings, and ceilings in good repair and not soiled			
	100.	Sufficient ventilation in all rooms			
	101.	Lead-based paint does not exceed dust levels			
RESTR	оомѕ				
	102.	Soap and single service towels are available in the restroom.			
	103.	Hot water at the handwashing sink does not exceed 120 degrees F (minimum temp 60 degrees F)			
	104.	Handwashing sinks are 24-36" in height and located in or adjacent to restrooms			
	105.	A covered garbage receptacle is available in the restroom			
	106.	A ratio of 1:4 potty training chairs is utilized for children who are potty training.			
DIAPE	R CHA	CHANGING AREAS			
	107.	The diaper changing area is within 12 feet of the handwashing sink			
	108.	Hand washing is done immediately before and after changing diapers			
	109.	Changing pad good condition & clean			
	110.	Sanitizer available in diaper changing area and used after every change (proper strength: 100-200 ppm Chlorine/ 200ppm quantaray ammonia/ or according to product label)			
	111.	Proper disposal (covered garbage receptacle)			
LIQUII	D & SO	SOLID WASTE DISPOSAL			
	112.	Public sewage system or DEQ approved system			

	113.	Garbage storage covered, clean, lined, durable, cleanable and insect & rodent proof
ANIMA	LS	
	114.	Excluded from food prep, dishwashing and dining areas (including dishes and litter boxes, etc.)
	115.	Pet vaccination or psittacosis tests (for birds) current and available
	116.	Only allowed animals (domestic dog, cat, ferret, ungulate, pet rabbit, pet rodent, aquarium fish, non-psittacine cage and aviary birds). No wild, aggressive or potentially harmful animals. No contact with ferrets, baby chicks, baby ducks (children under 5). No bats, raccoons, skunks and wild carnivores (including dead animals).
PEST C	ONTR	OL Control of the con
	117.	Insect and rodent control measures in place
	118.	Approved methods: stick-um fly strips, electronic killing devices and other non-toxic methods or pesticides
	119.	Doors and windows effectively protect against all insects and rodents. Screen material less than 16 mesh to the inch
HEALTH	I REQ	UIREMENTS
	120.	No person with communicable disease present
	121.	Exclusion of ill staff and children as per rules
	122.	Policy for notifying parents of ill children
