DISHV	VASHI	NG/SANITIZING		
С	32.	Dishes, glasses/cups, utensils and silverware must be washed either in a dishwasher with a sanitizing cycle or by the 3 compartment sink method.		
HEALT	H AND	SAFETY		
С	32.	Disinfectant/ test strips present and in use in food prep and dining area.		
С	33.	Heating appliances and electric fans shall be screened or not used.		
UTENS	SIL STO	DRAGE		
С	33.	Protect clean utensils, glasses, dishes, pots and pans, from contamination. Drawers holding sharp utensils are secured.		
GARB	AGE CO	VERED/REMOVED		
NA	34.	Food waste and disposable diapers are in covered containers or closed garbage bags. Garbage is removed regularly. Garbage is stored inaccessible to children.		
HEALT	H AND	SAFETY		
NA	34.	Swimming and Wading Pools have parental permission slips. Check other Water Hazards.		
NA	35.	Hot Tubs, Spas and Full Sized Trampolines.		
PLUMI	BING/S	SEWAGE DISPOSAL		
NA	35.	Plumbing must be in good condition and comply with local plumbing code. Sewage must be properly disposed of with no overflows or surfacing that may cause contamination.		
WATE	R SUPF	PLY/WELL SAMPLED		

С	36.	The water must be free of contamination. Well water shall have a bacterial test every six months. If infants are present, well water shall be tested for nitrates every 3 years.		
HEALT	H AND	D SAFETY		
С	36.	Storage of weapons, ammunition, gunpowder, and archery equipment.		
С	37.	Tobacco, Drug, & Alcohol Policy.		
С	38.	Operable telephone or cell phone is available.		
С	39.	Awake infants and toddlers are not confined to cribs, playpens, car seats, swings, high chair, and carriers or in one position for excessive periods of time.		
С	40.	Infants shall be provided with a designated and safe play area.		
С	41.	Overnight Care requirements shall be met if overnight care is provided.		
С	42.	Floors, walls, and window coverings are kept clean.		
С	43.	Wet or soiled clothing, including disposable undergarments are changed promptly and clean clothing for emergency is available.		
С	44.	Diaper changing area is sanitary and within 12 feet of hand washing sink. Disinfectant is readably available.		
С	45.	Children and staff wash their hands as required.		
С	46.	Toys, phones, doorknobs, door casings, handles and railings must be cleaned and sanitized once a week or whenever visibly soiled. Food serving surfaces shall be sanitzed before and after each use.		
С	47.	Dirty laundry shall not be accessible to children.		
С	48.	A sturdy stool, soap, and single service hand towels are available to children at hand-washing sink.		
С	49.	Outdoor/Indoor play areas, equipment and surfacing are in safe condition.		
С	50.	Outdoor/Indoor play areas, space used at least one (1) time per day for at least 30 minutes.		
С	51.	Vehicle used to transport children shall be maintained in safe condition and comply with all applicable motor vehicle laws.		
С	52.	Media, including movies and internet sites that are rated higher than PG shall be inaccessible to children.		
С	53.	Fire exits are clear and exit doors remain unlocked or have locks allowing all parties to safely exit.		
RECO	RD KEE	PING		
С	54.	Attendance records are maintained/verified by staff (sign in/sign out sheets available).		
С	55.	Current Fire Inspection Report.		
С	56.	Current Sanitation Report. Completed: 12/04/2019 Expires: 12/04/2020		
NA	57.	Current Well-water Test Results. Completed: 11/13/2015 Expires: 11/13/2016		
С	58.	Policy statements and Emergency Preparedness plan is on file and given to parents. If changes in policy, new copies are received.		
С	59.	Required injury/Illness/Incidents are reported and kept on file.		
С	60.	Explain the role of your board of directors and has the chairperson changed.		
С	61.	Infant documentation for diapering and feeding is made available to parents.		
С	62.	Menus are current and available for parental review.		
С	63.	Name of food program provider belongs to: Wildwood		
С	64.	Written record(s) of emergency preparedness drills are complete and available.		

С	65.	Confidentiality.	
С	66.	Children's names, pictures and any other information shall have parental permission for use.	
С	67.	All equipment and products used in child care facilities shall be used per manufacturer instructions. Manufacturer instructions/guidelines, including but not limited to Indoor/Outdoor equipment, Cribs, Sleepers/Sleep Sacks shall be on file.	
FOOD	PREPA	ARATION/CARE/SERVICE	
	68.	Food prepared and served is of sound condition and approved source (no wild game)	
	69.	No "home-canned" food	
	70.	Pasteurized eggs, egg products and juice (children 9 and under)	
	71.	Milk and milk products Pasteurized and Grade A Quality standards - including dry ($\frac{1}{2}$ or 1 gallon for serving and no reuse of milk, refrigerate after pour) No dry powdered milk for drinking	
	72.	Sufficient cold and hot storage equipment present for potentially hazardous food	
	73.	Refrigerator food contents held at or below 41 degrees	
	74.	Freezer food maintained in frozen condition at or below 32 degrees	
	75.	Are potentially hazardous prepared foods held at or above 135 degrees.	
	76.	Food is cooked to the proper internal temperatures	
	77.	Beef roast 140	
	78.	Steak/ chops /fish 145	
	79.	Ground beef and pork 155	
	80.	Poultry and stuffed meats/ all leftovers 165	
	81.	In refrigerator 41 degrees F or lower	
	82.	Under potable water @ 70 degrees F or lower	
	83.	Microwave	
	84.	Food protected from contamination	
	85.	No unwrapped leftovers	
	86.	Food storage (clean, covered, labeled) at least 6" above the floor	
	87.	Cross-contamination prevention: least possible manual contact with clean & sanitized surfaces and utensils.	
	88.	Food preparation and service surfaces are constructed with safe materials and are in good repair (corrosion resistant, cleanable, durable)	
	89.	Food preparation and service surfaces are cleaned and sanitized	
	90.	Adequate lighting, vent covers, wall-mounted fans, and similar equipment in good repair	
	91.	Hair control for food prep practiced	
EQUIP	MENT	STORAGE, CLEANING & SANITIZING	
	92.	All equipment and utensils for food preparation and service are cleaned & sanitized and stored 6" above floor level	
	93.	Warewashing method: with a water temp reaching a minimum of 150 degrees.	
	94.	3 compartment sink with sanitizing basin Air drying sanitizer strength:	
	95.	Sanitizer is mixed at the proper strength (50-100ppm Chlorine/ 200ppm QuaternaryAmmonia/ or according to product label)	

97. No reuse of single service articles 98. Toys are sanitized no less than weekly or more often if visibly soiled. PHYSICAL FACILITIES 99. Floors, floor coverings, walls, wall coverings, and ceilings in good repair and not soiled 100. Sufficient ventilation in all rooms 101. Lead-based paint does not exceed dust levels RESTROOMS 102. Soap and single service towels are available in the restroom. 103. Hot water at the handwashing sink does not exceed 120 degrees F (minimum temp 60 degrees F) 104. Handwashing sinks are 24-36" in height and located in or adjacent to restrooms 105. A covered garbage receptacle is available in the restroom 106. A ratio of 1:4 potty training chairs is utilized for children who are potty training. DIAPER CHANGING AREAS 107. The diaper changing area is within 12 feet of the handwashing sink 108. Hand washing is done immediately before and after changing diapers 109. Changing pad good condition & clean 110. Sanitizer available in diaper changing area and used after every change (proper strength: 100-200 ppm Chlorine/ 200 ppm 111. Proper disposal (covered garbage receptacle) 112. Public sewage system or DEQ approved system 113. Garbage storage covered, clean, lined, durable, cleanable and insect & rodent proof ANIMALS 114. Excluded from food prep, dishwashing and dining areas (including dishes and litter boxes, etc.) 115. Pet vaccination or psittacosis tests (for birds) current and available 110. Only allowad animals (donnatic dag, cat, farrar, ungulate, pet rabbit, pet rodent, acuarium fish, non-pattacine cage and available and insect and rodent control measures in place 1117. Insect and rodent control measures in place 1118. Approved methods: stick-um fly strips, electronic killing devices and other non-toxic methods or pesticides 1119. Doors and windows effectively protect against all insects and rodents. Screen material less than 16 mesh to the inch HEALTH REQUIREMENTS 1120. Policy or notifying perents of ill children		06	Single convice articles store 6" above floor level
99. Toys are sanitized no less than weekly or more often if visibly solied. PHYSICAL FACILITIES 99. Floors, floor coverings, walls, wall coverings, and cellings in good repair and not soiled 100.
